Data Management Suite

Description

Learn how to use Wdata, Chains, and Data Prep to streamline your current processes from source system to final report with The Connected Experience.

Learning Objectives

- Examine how Wdata, Chains and Data Prep work together to make up the Data Management Suite.

- Implement tables, queries and views using Wdata to allow users to search, connect, and add context to data in preparation for using Chains.

- Setup connectors within Chains to create an automated, comprehensive, and repeatable workflow to allow for the transformation of data within Data Prep.

- Compare data brought in by Wdata using the three main tools in Data Prep: Pipelines, Sample Data, and Mapping Groups.
