

Integrated ESG, simplified.

Whether you are within the office of the CFO or on the sustainability team, it's critical to provide transparency that can be trusted with stakeholders and regulators as demands for ESG are on the rise.

Workiva is the only end-to-end platform that allows you to integrate financial and non-financial data, including from disparate ESG sources. Collect, assemble, and report with the same technology trusted by more than 3,700 organizations across 180+ countries.

Deliver high-quality disclosures to your most important stakeholders. Connect information directly into sustainability reports, surveys, statutory disclosures, annual reports, SEC filings, earnings call scripts, and even XBRL[®] tagging. (Yes, XBRL requirements are coming, and with Workiva, you'll be ready for it.)

Take out the risk and reap the rewards with one unified platform for everything ESG.

Collect any data, from anywhere

Take the tedium out of your work. Workiva connects to your source systems and automates the process of aggregating data. Plus, the platform facilitates data collection directly from your team—all while keeping you in control of data review and validation.

Build your strategy with any and all frameworks

Whether your company reports in accordance with recognized ESG frameworks, industry standards, or custom lists, we've got you covered.

Get audit ready

Work in the same audit-ready environment as financial reporting teams to ensure your ESG disclosures stand up to the highest level of scrutiny. Collect, manage, and report data with complete audit trails, data lineage, and transparency throughout the process.

Report with confidence

Consolidate and connect information across reports with accurate and consistent data. Take your integrated reporting and easily connect it to all your ESG reports and presentations to ensure your story is the same, every time.

Workiva's licensing allows an unlimited number of users to collaborate on a variety of ESG projects—across finance, accounting, and sustainability teams. The Workiva solution for ESG includes:

Data collection across systems, teams, and locations

Linking to multiple ESG reports

Framework ready

Simplified assurance process

Team collaboration

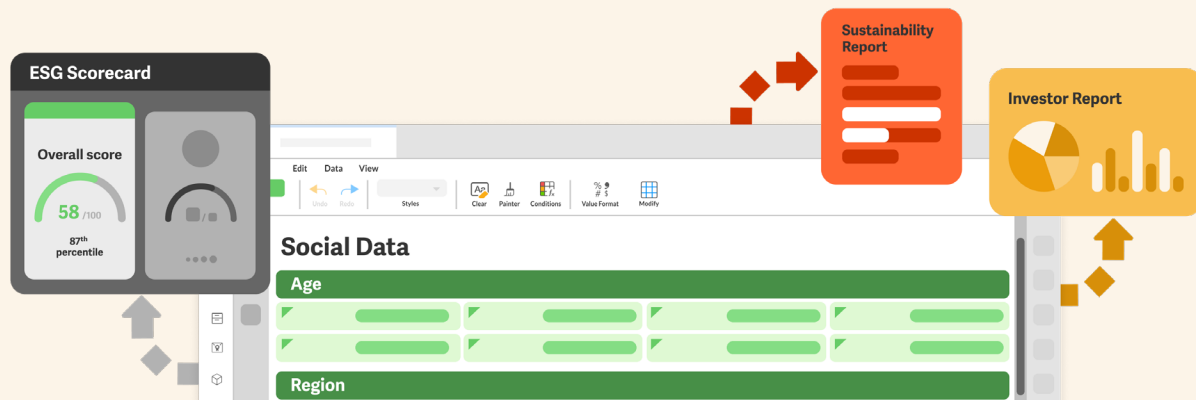

Built-in security and control over all users and data

Source system integration
